To Whom It May Concern:

About a year ago, 2015, I contracted with Reid J. Stewart who owns and operates Bear lake Log Homes in Bear Lake County, Idaho. I asked him to remodel the basement of my log cabin in Fish haven, Idaho. He gave us a semi firm estimate of the cost and said that he would be done by Memorial Day in 2016. He started to work on the remodel as soon as it snowed. He and his crew worked through the winter and they were completed as promised by Memorial Day. The quality of the work was exactly as we expected and we are delighted with the result. The price was acceptable and I am happy to report that it was a good experience. I an recommend Reid for any of your remodel jobs.
